

PharmOutcomes – Sheffield – Basic guidelines for Community Pharmacies

We are sending this communication to community pharmacies in Sheffield to re-iterate the process for claiming on PharmOutcomes which we originally covered at our training event on 26th July 2023.

There has been some changes which has resulted in some community pharmacies not claiming the correct fees in August 2023.

****Please ensure you follow the processes in this document in order to receive your correct remuneration****

Section 1 – Supervised Consumption – Registration

- There has been no changes to this section
- All patient details were transferred over on 1st August 2023 so only new patients need to be registered

S1. Supervised Consumption - Registration (Preview)

Registration date

Name

Date of Birth
Enter as **dd-mmm-yyyy** (eg 23-Feb-1989)

Postcode

Referral Date
Date referral received from Prescriber
Enter as **dd-mmm-yyyy** (eg 23-Feb-1989)

Therapy Details

Medicine Type

Section 2 – Supervised Consumption – Supervision

- Note – *only supervised consumptions need to be recorded in this section* – there is now no requirement to record patients who are NOT supervised i.e., on a “To Take Away” (TTA) dose

S2. Supervised Consumption - Supervision (Preview)

Please only record interventions with patients who are prescribed **supervised** consumption oral OST in this section. There is no need to record details for patients prescribed non-supervised OST from 1st August 2023.

Start Date

Client Name

You cannot register new Client Name

Medicine Type

- Buprenorphine
- Espranor
- Methadone Solution
- Methadone Tablets
- Suboxone
- Other - injectables
- Other - tablets

- If you record TTA doses this will **not** generate a £20 patient payment unless section 3 is completed – see next page.
- This should save community pharmacies significant time in recording interventions.

Section 3 – Monthly OST Payment

- This section needs to be completed ONCE A MONTH for each patient (whether supervised or having a TTA dose) to receive the £20 monthly patient payment
- Note – if you have forgotten an entry for a month, you can set the provision date to the 1st of the previous month to claim the payment. *For example, if you have not claimed for patients £20 fee in August 2023 you can claim retrospectively (provided not greater than 3 months) by adding the details in section 3 and setting the **“provision date”** as 01-Aug-2023*

Please tick the box below to confirm the patient has had at least one dose of supervised or non-supervised Opioid Substitution Treatment (OST) in the calendar month for the claim. This will apply to any OST provision whether oral or injectable. This payment can only be claimed once per calendar month per patient prescribed OST

Confirm OST supply
