

Naloxone could save yours or your friends life.

Kits are FREE and can be obtained from Burleigh Court.

Naloxone is injected into the leg muscle and will temporarily reverse the effects of an opioid overdose.

Make sure that you family, friends and partner know that you have a kit and tell them how to use it and where it is stored.

Deaths from overdose are avoidable!

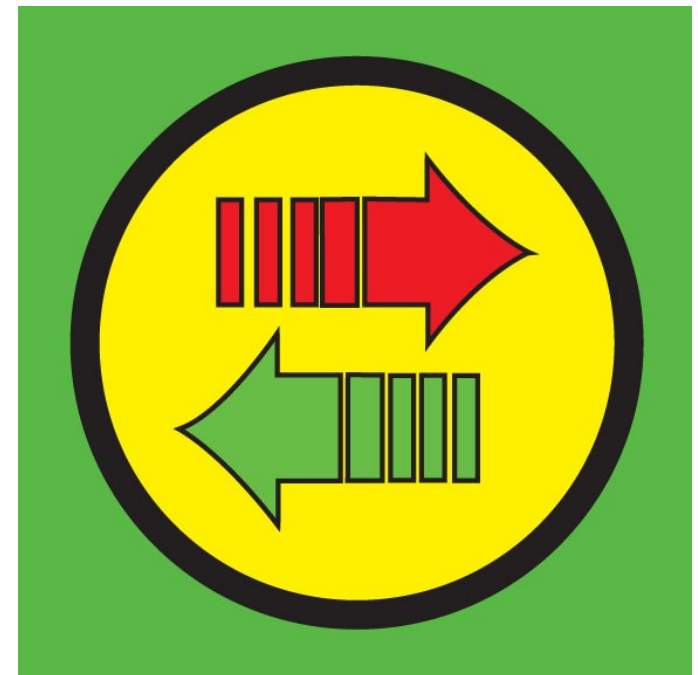

**ALWAYS CARRY A  
NALOXONE KIT**

Where to obtain  
injecting equipment  
in Barnsley

Barnsley Recovery Steps support several pharmacy Needle & Syringe Programmes. They stock the same range of injecting equipment as the NSP at Burleigh Court. Injecting equipment can be collected by anyone aged 18 or over.

NSP is FREE & Confidential

Burleigh Court specialist NSP service is open Monday to Friday 9:00 – 17:00

### The Recovery Hub

Monday - Friday 09:30—15:30, the open space is available for you to come along for hot drinks, biscuits, and use of the I.T suite.

Make sure that you collect enough Injecting equipment for yourself & any other people who inject who you might encounter

Try to **wash your hands** prior to opening Injecting equipment

**Use sterile water** – water from a kettle that is boiled then left to cool is sterile

Try to **return used equipment** for safe disposal.

**Never share or reuse** injecting equipment

**Be Overdose aware** – your risk is increased if using heroin on top of prescribed opioid medication or alongside alcohol or Benzodiazepines like Diazepam or Xanax
